Strategy for Multiplying a Number by 8: The number 8 can be written as $8 = 2 \times 2 \times 2$, so that means in order to multiply by 8, we can multiply by 2 three times. (This is the same as doubling the number 3 times.) For example: 13×8 . By writing $8 = 2 \times 2 \times 2$, we actually have $13 \times 2 \times 2 \times 2$. Let's start doubling: $13 \times 2 = 26$.
